PROFESSIONAL SUMMARY

B.Tech (CSE – Data Science), Graduating 2026, with hands-on experience in Python, SQL, Machine Learning, and Data Analysis. Delivered end-to-end ML solutions — including an XGBoost-based purchase prediction model ($R^2 = 0.6712$) with Streamlit deployment and a telecom churn EDA across 7,000+ records. Gained industry exposure through a Data Science internship working with real client datasets.

TECHNICAL SKILLS

Programming: Python, SQL

Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn, XGBoost

Data Analysis: EDA, Data Cleaning, Feature Engineering, Segmentation, Correlation Analysis, Statistical Analysis

Machine Learning: Regression, Classification, Model Evaluation & Comparison, XGBoost

Visualization: Power BI, Matplotlib, Seaborn, MS Excel

Tools: Git, GitHub, Streamlit, Jupyter Notebook, Google Colab, VS Code

PROJECTS

Black Friday Purchase Prediction ([link](#))

Apr 2026

Tech Stack: Python, Pandas, XGBoost, Scikit-Learn, Streamlit

- ▶ Performed EDA and feature engineering on 550K+ retail transaction records from the Black Friday Kaggle dataset.
- ▶ Trained and compared 5 regression models; XGBoost achieved best performance ($R^2 = 0.6712$, RMSE = 2878.57).
- ▶ Implemented preprocessing pipelines with categorical encoding and missing value imputation.
- ▶ Developed a Streamlit app for real-time purchase amount prediction based on customer and product inputs.

Telecom Customer Churn Analysis ([link](#))

Sep 2025

Tech Stack: Python, Pandas, Matplotlib, Seaborn, EDA

- ▶ Conducted end-to-end EDA on 7,000+ telecom customer records to identify churn drivers across contract type, tenure, and billing.
- ▶ Found month-to-month customers churned at 3× the rate of annual contract holders — directly informing retention strategy.
- ▶ Produced Matplotlib and Seaborn visualizations highlighting the top 5 factors affecting customer retention.

EXPERIENCE

Solitaire Infosys Pvt. Ltd. — Data Science Trainee

Jan 2026 – Jun 2026 | Mohali, Punjab

- ▶ Cleaned and preprocessed portions of a telecom client's dataset as part of a collaborative team effort.
- ▶ Assisted in identifying key columns relevant for churn analysis on the processed data.
- ▶ Gained hands-on exposure to real client data handling in a professional setting.

CERTIFICATIONS

Data Analysis with Python — [FreeCodeCamp](#) | Jul 2025 Machine Learning with Python — [FreeCodeCamp](#) | Jul 2025

ACHIEVEMENTS

- ▶ 1st Place in Project Display Competition among 1,000+ participants — Gulzar Group of Institutes.
- ▶ International remote experience as AI Trainer & Prompt Engineer at Outlier (USA) for 6 months.
- ▶ Built and deployed an end-to-end ML application (XGBoost + Streamlit) for real-time purchase prediction.
- ▶ Grew a 500+ member professional community on LinkedIn.

EDUCATION

B.Tech — Computer Science & Engineering (Data Science)

2022 – 2026

Gulzar Group of Institutes, PTU | Ludhiana, Punjab

Relevant Coursework: Data Science, Statistics, DBMS, Machine Learning, Python Programming
